Notes

*2026 national EYFS data will be released by the DFE in November 2026, but results do not usually change significantly from one year to the next.

**Children are defined as having reached a 'Good Level of Development' (GLD) at the end of the EYFS if they have achieved the expected level for the Early Learning Goals in the prime areas of learning (communication and language; personal, social and emotional development; and physical development) and the specific areas of mathematics and literacy.
NB The areas of learning are the averages of two-three ELG.

***Key Stage 1 SATs were made optional from 2024 onwards, so national data is no longer available for comparison purposes.

**** Key Stage 2 Greater Depth Data has not yet been released.
